DAHLIAS

1935

EIGHTEENTH EDITION

1935

It is with pleasure we present this, our latest Catalogue, to Dahlia lovers throughout the entire country, and express our deep appreciation for the liberal support accorded us.

The many letters from our customers telling of their pleasure and successful winnings with our dahlias and seeds have been a continual source of gratification and inspiration.

Do not hesitate to write and ask for any information. Your success is our aim.

This past season it was enjoyable to meet so many of our dahlia friends at our new gardens, located on Kentfield Avenue in Redwood City, San Mateo County, the floral county of California, where the climatic conditions allow a proper growth for experimental purposes. Dahlias grown under these conditions should do well in any part of the world. We always have the very latest varieties of dahlias—Eastern and Western—including the best and most sensational of the day, and the finest of old standard ones.

The past year has been one of the most interesting experiments, especially with the hybridizing of our dahlias for seed.

With continued thanks for your loyalty, and the hope that this catalogue will be of further interest, we wish you all success and great pleasure with your dahlias for the coming season.

NEW

1935 INTRODUCTIONS OF

CALIFORNIA GIANT DAHLIAS

SEAL'S LADY OF SHALOTT—Formerly Seal's Shalimar which we in courtesy renamed, as there is another beautiful Shalimar—a fine poinsettia red—being introduced in Michigan. Our informal decorative is of great beauty and has been tested in the East for the last two years by Mr. Derrill W. Hart, and won a place of Honor in his 1934 Review of New Dahlia Champions. A combination in color of gold blushed with apricot and bronze, with a center of bright gold which is perfect and closed. Can be easily grown twelve inches and with care, greater size, as the blooms are naturally very large. The stems are long and stiff and the plant large and tall. An early bloomer. Shipment February 15th. Root.....**\$15.00 Net**

FRANK SERPA (Serpa-Seal)—An informal decorative of exquisite beauty—light amaranth pink produced by petalled tips of mallow pink growing lighter towards the base of petals, turning to a delicate orchid pink; the two-toned effect gives the flower a beautiful crisp appearance. Extra long clean stems hold the blooms very high above a plant four to five feet high and is a vigorous grower. This lovely dahlia has won many prizes and the 1934 Achievement Medal in San Francisco and is on the Roll of Honor. Shipment February 15th. Root.....**\$10.00 Net**

ZAMORA (McWhirter-Seal)—Finest formal decorative of clear yellow. The immense bloom is easily grown twelve inches and has great depth, and grows like a chrysanthemum—huge, on top of an erect stem five feet long and fifteen inches clear of first lateral. Tall strong growing plant. Requires very little disbudding. Flowers keep well when cut. In 1933 won the award given by the President of Spain and at the recent show of The Dahlia Society of California won the First Prize for the Best Dahlia in the Show. Shipment February 15th. Root.....**\$10.00 Net**

AYESHA (Seal)—Our informal decorative of dusky oriental beauty. A blossom of rich bronze and copper, with perfectly closed center of deep red bronze. The large sized flower is held on a long stem above tall plant of strong vigorous growth. Root.....**\$7.50**

SEAL'S ORIENTAL—Our attractive informal decorative of fantastic coloring of Chinese red and gold, with each petal heavily covered with a sheen of copper. A charming blossom of a very large size having a stiff stem above a low growing plant of strong growth. A large stock. Root, **\$5.00**

SEAL'S GREAT 1934 ROLL OF HONOR DAHLIA

Our great Informal Decorative of true yellow. H. R. S. was placed on the Roll of Honor in the East. Gained its place because of its distinctive long petalled bloom, fine form and size. Many Eastern growers consider it "by far the finest yellow"; "a superb dahlia"; "a free blooming golden yellow—one of the best of the year"; "H. R. S. was one of the finest, if not the finest, of the new ones." It is an excellent plant.

The golden yellow blossoms are huge without forcing and are held high on long, stiff stems. It has never been propagated.

A large stock allows us to offer it at **\$5.00** a root.

NEW CLASSIFICATION OF THE DAHLIA

We are using the new Classification of the American Dahlia Society, as follows: Semi-Cactus (S.C.), formerly listed as Hybrid Cactus; Formal Decorative (F.D.), those with regular arranged petals; Informal Decorative (I.D.), those with curly twisted, irregular arranged petals.

The varieties listed below are desirable additions to any garden, and regardless of price they are all beautiful. The more expensive varieties are higher priced only because there are fewer on the market.

The petals have a delightful golden sheen and twist and turn making a two-toned effect, so full of gaiety and cheer. The flowers are massive with great depth and perfect formation, holding center throughout the entire season. Stems are long, stiff and strong, holding the gay blossoms high above a healthy bush which is constantly in bloom.....**\$2.50**

- ***EAGLE ROCK FANTASY (Broomall-Success) I.D.**—Clear lavender pink or pure mauve. Of ideal habit and mammoth size. 12-inch blooms are the rule rather than the exception. Stems are long and stiff. This dahlia is most outstanding.....**\$2.00**

Seal's Dahlia Seed

Gorgeous Dahlias May Easily
Be Grown the First Year from Seeds

HAVE YOU EVER TRIED GROWING
OUR CALIFORNIA DAHLIA SEED?

Undoubtedly one of the most fascinating phases of dahlia culture is the origination of new varieties from seed and the real thrill in growing dahlias is producing new varieties. Growing dahlias from seed is a lottery but it is a great sport and you may be the lucky winner of some fine new dahlias and to know the joy of having a seedling patch.

We would advise for best results for general purposes, Collections A or B, as they are made up of specially selected varieties from the most famous novelties and can be planted from March 1st to May 1st, and to May 15th in a frostless belt.

Many First Prizes and an Achievement Medal were won from our seeds. A customer in Canada wrote: "Every seed I planted grew and 85% of them were doubles—principally decorative, some cactus, some of them went as large as 13 and 14 inches across. In fact, they are the finest I ever grew. They were gorgeous!"
